National Educator

SMARTLIPO™ GENTLER, FASTER, SMALLER

DR. ROSIO IS 1ST IN NORTHERN CALIFORNIA
As more women – and men – want to look and feel better about themselves, body contouring and lipo-sculpture continue to grow in popularity, making it the most popular cosmetic surgery performed today. Dr. Rosio is among the first doctors in the U.S. to offer a newer, gentler approach.

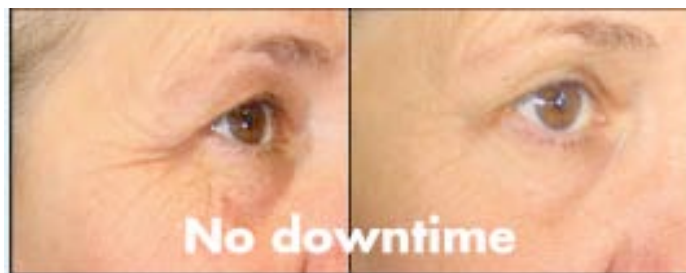

Smartlipo™, as seen in **People™ magazine**, is the first and only laser lipolysis system to offer a revolutionary and minimally invasive procedure for the removal of fat AND the tightening of skin. Using a barely visible 1 millimeter laser micro-fiber, SmartlipoSM is a new Laser Body Sculpting procedure with less downtime and side-effects than traditional liposuction. This new treatment offers unique skin tightening benefits not found in traditional liposuction, that Dr. Rosio has named “Skin-fitSM. Gentleness, avoidance of visible scars, small size, and local numbing, all allow a quicker easier recovery in less time. **Reduction without the suction!**

See us on NBC Special!

FRACTIONAL LASER SMOOTHS WRINKLES, SCARS, SUNDAMAGE IN MINUTES

Fractional Resurfacing: No Pain, No Stain! AnewSkin now offers the fastest, most convenient state-of-the-art skin resurfacing technique. We treat in minutes scars, wrinkles, the signs of skin-damage and age, without removing the entire top layer of skin, leaving you with fantastic results with far less down-time than traditional CO₂ laser treatments! We eliminated the pain, messy staining blue dyes, and lengthy time associated with earlier fractional devices. **PhotoFacials** alone or in combination also remove the brown and red spots associated with sun damaged skin giving a healthier, smoother look and feel to your skin.

REFRESHED EYES BANISH 'BAGS & SAGS'

A fresh, alert look is important to many people for self-esteem, social, and job success. Studies show that people notice the eyes first as a sign of alertness, interest, and health. Family genetics, allergies, poor sleep patterns, & alcohol can lead to or accentuate ‘eyelid hernias’ or ‘bags & sags’ (page 2)

RELAX, RENEW, RE-ENERGIZE

At AnewSkin Dermatology we provide more than just medical dermatologic services – we provide safe, professional Aesthetic services and Cosmetic treatments as well.

NEW LASERS AT ANEWSKIN ZAP ACNE & HAIR

Acne three minute laser/light treatment~

'Turn off Scarring' advises Dr. Rosio

Our AnewSkin treatment wipes out acne for many teens and adults with resistant inflammatory acne in just a few minutes a week. Within an hour skin feels smoother, and fading of redness and swelling is noticeable in one day. The major benefit noticed by Dr. Rosio is speed in turning off the scarring process. Many who thought their scarring was beyond help enjoy smooth skin within weeks.

Restylane® – KISS WRINKLES GOODBYE!

Because the mouth can be far more suggestive than the eyes, **Valentine's Day** is the ideal time to consider a **natural beauty lift** for the area around your lips. One **simple** treatment with **Restylane®** can give you the **dramatic** result of restoring fullness to soften the lines and folds around the mouth, without any downtime. For best results, don't wait until the last minute. I recommend that you come in two to three weeks before your **Valentine's Day** celebration. Don't miss out. **Call now** to schedule your appointment!

AnewSkin Facial!

MORE TREATMENTS TO RESTORE, ENHANCE & MAINTAIN

Lip-Plumper: a new product that actually plumps the lips, making them fuller without injections or fillers.

Hair Re-Growth: grows eyebrow, eyelash, & scalp hair, making them fuller & longer! A new non-minoxidil medication safe for all skin grows even dormant plucked brows and hair.

REFRESHED ALERT EYES (from pg 1)
Dr. Rosio's lower eyelid technique eliminates bags without stitches or passing through the skin. Upper eyelid 'sags' hide a tiny incision in the natural crease. The gentle in-office procedure with local numbing is easy and fast for our patients on Friday, and back to work on Monday.
